Special Town Meeting to act on articles in Town Warrant was held Monday evening, May 25, 1914, at eight o'clock.

The meeting was called to order by the Town Clerk, Henry A. Parker. After the reading of the Warrant by the Town Clerk, Art. 1 was taken up.

Art. 1. To choose a Moderator to preside at said meeting.

Chose Thomas P. Parsons, who, after being qualified by the Town Clerk took charge of the meeting.

The Moderator appointed and swore in the following citizens as tellers, viz: Frank E. Parker, Herbert M. Forristall, Granville A. Clark, Charles E. Putnam.

Voted: To take up Article 3.

Art. 3. To see if the Town will appropriate the sum of \$15,000 for the maintenance of its Water System. This amount being in lieu of the income of the Water Department, or to see what action the Town will take in the matter, agreeable to the petition of Granville A. Clark and others.

Voted: That the sum of \$13,973.03 be and hereby is appropriated for Water Maintenance in lieu of the income.

Voted: That when this meeting adjourns it shall adjourn to Monday, June 8, 1914, at eight o'clock.

Voted: To take up Art. 4.

Art. 4. To see if the Town will appropriate the sum of \$300 for the purpose of building a foot-bridge across the Saugus River at the foot of Woodbury Avenue, or to see what action the Town will take in the matter, agreeable to the petition of Austin P. Bagley and others.

Voted, To refer to a committee of three to be appointed by the Moderator and said committee to report at the adjourned meeting June 8, 1914, and the following citizens were appointed: Austin P. Bagley, Frederick S. Mitchell, Harry Woodward.

Art. 2 To see if the Town will vote to appoint a committee of five citizens to make an examination into affairs of the school committee including all matters pertaining to schools, and especially into the condition of affairs at the High School regarding the recent trouble and the trouble that now exists, and the reasons therefore, hereby requesting the school committee and all teachers who recently made complaints to the school committee regarding the condition of affairs in the High School to attend the meeting of this committee and that the committee report their findings with their recommendations at an adjourned town meeting to be held in Town Hall not later than ten days from the date of the appointment of this committee or to see what action the Town will take in the matter.

ADJOURNED TOWN MEETING.

June 8, 1914.

Meeting called to order by the Moderator at 8 o'clock P. M.

Voted: To waive the reading of the records of the last meeting.

Report of the foot-bridge over Saugus River at Woodbury Avenue, Committee was accepted.

Voted: To take up Art. 4.

Art. 4. To see if the Town will appropriate the sum of \$300 for the purpose of building a foot-bridge across the Saugus River at the foot of Woodbury Avenue, or to see what action the Town will take in the matter agreeable to the petition of Austin P. Bagley and others.

Voted: That the sum of \$300 be and hereby is appropriated for building a foot-bridge across the Saugus River at Woodbury Avenue.

Report of the Committee appointed under Art. 2, was read and it was voted that the report be received and that the recommendations be acted upon separately.

First, That Mr. Butterworth's four years of service as Principal of the Saugus High School be most heartily endorsed.

Voted: That recommendation No. 1 be adopted as read.

Second: Feeling that the School Committee have acted

evasively, and have been, it seems to us, unfair and unwise, we feel it to be for the best interest of the Town and Schools that they be asked to resign.

Voted: That recommendation No. 2 be adopted as read.

Third: In view of evidence submitted to this Committee, we would recommend that the entire personnel of the teaching staff of the Saugus High School and Principal of the ninth grade be changed for the next year.

Voted: That recommendation No. 3 be adopted as read.

Fourth: We recommend the election or appointment of a new School Committee, and that there be re-established between the School Committee and Superintendent of Schools the proper relation. He, being the executive head of the School Committee, should be given his true place as captain of the force of teachers and if they should have any complaints they should be made to him.

Voted: That recommendation No. 4 be adopted as read.

Voted: That a vote of thanks be given the Committee for the able report presented to the Voters.

Voted, To dissolve the meeting at 11.10 P. M.

SPECIAL TOWN MEETING, SEPTEMBER 28, 1914.

ESSEX, SS.

To W. Charles Sellick, Constable of the Town of Saugus,

GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Saugus qualified to vote in Town affairs to meet at the Town Hall on Monday evening, September 28th, A. D. 1914, at eight o'clock, to hear and act on the following articles, viz.:

Article 1. To choose a Moderator to preside at said meeting.

Art. 2. To hear reports of committees.

Art. 3. To see if the Town will vote to rescind its vote passed March 9, 1914, under Article 28, of the Warrant for said meeting, authorizing the Treasurer, with the approval of the Water Commissioners, to issue \$10,000 of bonds for the purpose of improving and extending the water system, under Massachusetts Acts of 1911, Chapter 91, Section 2, a question of legality as to the maturities voted for said bonds having been raised, agreeable to the petition of Robert T. Allen and others.

Art. 4. To see if the Town will vote to amend its vote passed at the Annual Town Meeting of March 9, 1914, under Article 36, of the Warrant for said meeting whereby the Town, with the approval of the Water Commissioners, was authorized to issue bonds or notes of the Town under Massachusetts Acts of 1911, Chapter 91, and Acts in amend-

ment thereof and supplementary thereto by raising the amount of such bonds or notes to \$28,000, and to make any further amendments in said notes which may be deemed expedient, or to take any action in relation thereto, agreeable to the petition of Robert T. Allen and others.

Art. 5. To see if the Town will appropriate and raise by borrowing \$7,000 for Water Supply purposes under authority of Massachusetts Acts of 1914, Chapter 133, or take any action in relation thereto, agreeable to the petition of Robert T. Allen and others.

Art. 6. To see if the Town will vote to appropriate the sum of \$700 to install a system of drainage from Cleveland avenue through Washington avenue, to the Lynn line, with the necessary catch basins, agreeable to the petition of Charles N. Wormstead and others.

Art. 7. To see if the Town will vote to accept so much of Section 37 of Chapter 19, of the Revised Laws, as apply to the Fire Department, or see what action the Town will take in the matter.

Art. 8. To see if the Town will appoint a committee of ten citizens for the purpose of examining into the question of a future form of government suitable for the Town, or to see what action the Town will take relating thereto.

And you are hereby directed to serve this Warrant by posting attested copies at the usual places seven days at least before the time of holding said meeting and to distribute copies as provided by the By-Laws at least four days before.

Hereof fail not and make due return of this Warrant, with your doings thereon to the Town Clerk, at the time and place of said meeting.

Given under our hands and Town Seal this fourteenth day of September, A. D. nineteen hundred and fourteen.

Art. 3. To see if the Town will vote to rescind its vote passed March 9, 1914, under Art. 28 of the Warrant for said

meeting, authorizing the Treasurer, with the approval of the Water Commissioners, to issue \$10,000 of bonds for the purpose of improving and extending the water system, under Massachusetts Acts of 1911, Chapter 91, Section 2, a question of legality as to the maturities voted for said bonds having been raised, agreeable to the petition of Robert T. Allen and others.

Voted: To rescind the vote of the town at its annual town meeting March 9, 1914, under article 28 of the Warrant for said meeting, whereby the Treasurer, with the approval of the Water Commissioners, was authorized to issue bonds under Massachusetts Acts of 1911, Chapter 91, Section 2, in amount of \$10,000 for the purpose of improving and extending the water system, a question as to the legality of the maturities of the bonds as fixed in said vote having been raised. Yeas, 55; nays, 0.

Art. 4. To see if the Town will vote to amend its vote passed at the Annual Town Meeting of March 9, 1914, under Article 36 of the Warrant for said meeting, whereby the Treasurer, with the approval of the Water Commissioners, was authorized to issue bonds or notes of the Town under Massachusetts Acts of 1911, Chapter 91, and acts in amendment thereof and supplementary thereto by raising the amount of such bonds or notes to \$28,000 and to make any further amendments in said vote which may be deemed expedient, or to take any action in relation thereto, agreeable to the petition of Robert T. Allen and others.

Voted: That the vote passed by the Town at the Annual Town Meeting March 9, 1914, under Article 36 of the Warrant for said meeting, authorizing the Town Treasurer, with the approval of the Water Commissioners, to issue \$25,000 bonds or notes of the Town under Massachusetts Acts of 1911, Chapter 91, be amended to read: That the Town Treasurer, with the approval of the Water Commissioners, be and hereby is authorized to issue bonds or notes of the Town under authority of Massachusetts Acts of 1911, Chapter 91, to an amount not exceeding \$28,000, for the purpose of extending and improving its water supply system, including acquiring of land, constructing a standpipe on Ba-

ker's Hill, so-called, and procuring land and constructing a pumping station and equipment of same, said bonds or notes to be in coupon form, dated May 1st, 1914, bearing interest at a rate not exceeding $4\frac{1}{2}$ per cent. per annum, to be denominated on face "Town of Saugus Water Loan, Acts of 1911," to be payable \$1,000 on May 1st of each of the years 1915 to 1942 inclusive, all other particulars as to the form, issuance and sale of said bonds to be determined by the Town Treasurer with the approval of the Water Commissioners. Yeas, 62; nays, 0.

Art. 5. To see if the Town will appropriate and raise by borrowing \$7,000 for water supply purposes under authority of Massachusetts Acts of 1914, Chapter 133, or take any action in relation thereto, agreeable to the petition of Robert T. Allen and others.

Voted: That the Town appropriate \$7,000 for water supply purposes, and that the Town Treasurer, with the approval of the Water Commissioners, be and he hereby is authorized to raise said amount by issuing bonds or notes of the Town under Massachusetts Acts of 1914, Chapter 133, said bonds or notes to be in coupon form, to be dated May 1st, 1914, to bear interest at a rate not exceeding 5 per cent. to be denominated on their face "Town of Saugus Water Loan, Act of 1911" to be payable \$500 on the first day of May of each of the years 1915 to 1928 inclusive, all other particulars as to the form, issuance and sale of said bonds or notes to be determined by the Town Treasurer, with the approval of the Water Commissioners. Yeas, 53; nays, 0.

Art. 6. To see if the Town will appropriate the sum of \$700 to install a system of drainage from Cleveland avenue through Washington avenue, to the Lynn Line, with the necessary catch basins, agreeable to the petition of Charles N. Wormstead and others.

Voted: To indefinitely postpone.

Art. 7. To see if the Town will vote to accept so much of

Section 37, of Chapter 19, of the Revised Laws as apply to the Fire Department, or to see what action the Town will take in the matter.

Voted: To refer to a committee of three, to be appointed by the Moderator and report at the Annual Town Meeting: Frank P. Bennett, Jr., K. L. Norris, Francis M. Hill.

Art. 8. To see if the Town will appoint a committee of ten citizens for the purpose of examining into the question of a future form of government suitable for the Town, or to see what action the Town will take relating thereto.

These bills were held up on account of the appropriations having been exhausted in every case, except that of the Moderator, and in this case, no appropriation was made.

Treasurer's Cash Account.

The cash on hand December 31, 1914, was verified by me by actual count, and the cash in the banks was verified by a reconciliation of the outstanding checks with books and bank statements, and was further verified by letters received from each bank certifying to the amount to the credit of the town at the close of business December 31, 1914.

Taxes Collected.

The payments made by the collector agree with the amount as received and credited on the Treasurer's cash book.

Trust Funds.

I have compared the bank books in the hands of the Treasurer with the amount called for in perpetual care fund account as being on deposit December 31, 1914, and they agree.

Sinking Fund.

The cash in bank was verified by me by reconciliation of the outstanding checks and bank statements, and was further verified by a letter received from the bank certifying to the amount to the credit of the Sinking Fund account at the close of business December 1, 1914.

I also examined the securities in November in the presence of the Treasurer and one member of the Sinking Fund Commission and found them intact.

Respectfully submitted,

Maturing debt, sinking fund	5,000 00

This calls from the various departments for over Fifteen Thousand Dollars (\$15,000.00) more than the amount appropriated in 1914. This, you readily see, means about two dollars (\$2) a thousand on your tax rate above 1914.

We are working harmoniously with the Board of Selectmen to modify the conditions, so that the recommenda-

tions of the Finance Committee are upheld at the Annual Meeting in March. We are of the opinion that the tax rate of 1915 will be under twenty-three dollars. We are confronted with a large expense that must be assumed by the Overseers of the Poor on account of the large number of unemployed, but we shall endeavor to offer the citizens propositions that will relieve the conditions and not add to the tax rate.

Respectfully submitted,

WILLIAM H. SMALL, Chairman.

J. GEORGE SMITH, Secretary.

ROBERT T. ALLEN,

HERBERT E. DODGE,

J. ARTHUR RADDIN,

Water Commissioners.

Report of Overseers of Poor

Charity Department.

To the Citizens of the Town of Saugus :

In submitting our report for the year ending December 31, 1914, we desire to call your attention to the fact that we were able to turn back to the town from our appropriation, \$925.52. We also have been able to collect from the Commonwealth of Massachusetts and from cities and towns the amount of \$1,804.57. Therefore, the actual expense of this department for the year 1914 was \$5,453.47.

We would recommend that our appropriation for 1915 be the same as that for 1914, owing to the increase of mothers' aid cases, and the large number of people unemployed at the present time. We, therefore, feel that the expenses of our department for 1915 will exceed those of 1914.

Saugus Home.

The Home has been well managed by our warden and our matron, Mr. and Mrs. Karl Koch. Our appropriation for the Home was \$10,000.00. We spent this year \$11,119.40. The receipts for the year are \$9,875.90 plus \$560.82, due on outstanding accounts, making our total credit \$10,436.72, or a deficit of \$682.68. Of this amount \$210.00 was for bills of 1913 paid in 1914. This makes a net deficit of \$472.88 for 1914.

Respectfully submitted,

GEORGE H. AMES, Chairman.

CHARLES W. BAILEY.

ANTHONY HATCH.

Report of Board of Selectmen

To the Citizens of the Town of Saugus:

We present this report to you with the earnest request that you acquaint yourself with some of the difficulties we have had to face, and then judge us accordingly. Besides the regular routine business which formerly required that meetings be held fortnightly, it is now of such importance that a meeting is held every week, and any Monday evening the board will be pleased to receive any citizen of the town, either to give or receive advice as the occasion may require.

At the Annual Town Meeting \$1,200 was voted to install a fireproof vault in the basement of the Town Hall. The contract was awarded to W. George Greenlay—the vault was built under Mr. Greenlay's personal directions, and is a very creditable piece of work. Same is furnished with steel fixtures and is now ready for use.

The contract for building the footbridge over the river at the foot of Woodbury Avenue was given to Charles N. Wormstead, and we feel safe in saying that the town received good value for the \$500, that being the amount awarded to Mr. Wormstead for the whole job.

This year we took up the matter of Town Insurance under the old form policies held by the town—the various buildings had different rates, and some we only insured for one year and even then at a high rate. We now have a blanket form, and under this we placed all of the town buildings and contents at a uniform rate of \$1.68 per hundred for five years. Nearly \$20,000 more insurance was placed. Even with the added amount a number of hundred dollars was saved to the town.

The town voted to adopt the Workingmen's Compensation Act; for this we ask that an amount sufficient to take care of the town be appropriated.

While on the matter of insurance, we are going to ask you to place the entire insurance in the hands of the Selectmen, it being of vital importance that it be placed

under one head, and with this in mind we have placed in the Town charge under one item the whole amount for the year.

In our Highway Department the surface water from our streets is now the one great difficulty. Heretofore the water has been turned on to a vacant lot or into some field where the water might in time disappear—conditions are changing—people are buying up these places, and building on them, and naturally, refuse to put up with the old order of things, so that we are obliged to take care of the water. Lincoln Avenue, East Saugus, Winter and Vine Streets, Saugus, and Lynnhurst should be taken care of this year, so as to relieve these people of the very unsatisfactory condition of water in their cellars.

This year we are asking you to appropriate money for a Stone Crusher. A portable crusher, with a capacity for crushing 125 to 150 tons a day, can be purchased for \$2,200. This is for the complete outfit, and same would be a great asset in building and repairing our roads. We trust this will meet with your approval.

We recommend that a spraying outfit for oiling the streets be purchased. With this machine at our command the streets can be oiled when we think necessary, thereby being able to cover places most needed with more than one oiling. The amount of this purchase can be paid out of this year's appropriations, and the same amount of roads oiled as last year.

It is very gratifying to the officials of the town at the prompt manner in which the tax-payers have paid this year's taxes. Out of a commitment of \$186,829.43, the Tax Collector has received and turned over to the Treasurer \$100,277.12—a much larger percentage than formerly. This surely is a step forward. On Tax Titles \$4,108.94 has been received by the Tax Collector and Tax Titles to that amount released with \$682.68 excess interest. Much credit is due the Collector for the efficient way in which this account has been handled.

GEORGE QUARMBY,

WALTER SPRAGUE,

GEORGE L. NOURSE,

Board of Selectmen.

Report of Tree Warden

To the Citizens of the Town of Saugus :

I herewith submit to you my annual report for the year ending December 31st, 1914. I have removed a number of dead trees and dead limbs in different parts of the town. I have also trimmed a large number of trees. I would recommend the sum of two hundred dollars for the care of shade trees this coming year. I also set out fifty young trees in different parts of the town. I would recommend the sum of one hundred dollars for setting out trees for this coming year. I also submit to you the number of trees I have sprayed for elm leaf beetle, which numbered seven hundred and fifteen. I would recommend the sum of three hundred and seventy-five dollars for spraying for the elm leaf beetle this coming year.

Respectfully submitted,

T. E. BERRETT,

Tree Warden.

Report of Board of Engineers

To the Board of Selectmen :

Gentlemen:—Your Board of engineers submit their annual report of the year ending December 31, 1914.

The department consists of chief engineer, two assistant engineers, two permanent men, one sub-permanent man, twenty call men, four sub-call men, and superintendent of fire alarm system.

Apparatus.

The apparatus consists of one auto combination, three hose wagons, one ladder truck. We recommend the replacing of this truck with an auto combination truck.

Hose.

We have about 4,000 feet of hose, of which amount about 60 per cent. will have to be condemned when the increased pressure from the standpipe is given us, as this hose will not stand the increased high pressure.

Fire Alarm.

The fire alarm system is in good working order. The elements for the storage will have to be renewed the coming year.

Alarms.

There have been fifty bell alarms and thirty-six telephone calls.

Respectfully submitted,

ERNEST STUART, Chief.

J. WALTER NEWHALL, 1st Asst.

ERNEST M. HATCH, 2nd Asst.

Report of Chief of Police

To the Honorable Board of Selectmen :

Gentlemen—In accordance with the requirements of the Town Ordinance I have the honor to submit by nineteenth annual report of the Police Department for the year ending December 31, 1914.

Chief of Police.

Charles O. Thompson.

Regular Police.

Captain Roland L. Mansfield, Frank W. Joy, James P. Sullivan, Clarence H. Berrett, John T. Stuart, Clifford E. Robie.

Special Police.

Peter A. Flaherty, William M. Penney, Timothy J. Bannon, Morin A. Hazel, Frank M. Symonds, Samuel C. Maddox, John P. Chesley, Justin E. Mansfield, Howard P. McAdoo, William F. Parker, George W. Parker, Nathan H. Williams, James W. Rea, Christopher C. Merrithew, Charles L. Davis, Thomas S. Sutherst, Charles F. Clark, James F. Pratt, Charles W. Sellick, Charles W. Willie, Phillip Ward, Arthur G. Clark, George W. Jeffrey, Carl F. Koch, William H. Semons, Thomas E. Berrett, Charles O. Popp, Alston F. Hart, Daniel B. Willis, Herbert Holland, James O. Cram, Harvey Upham, William F. Parker.

Arrests.

The total number of arrests for the year 1914 was 111, of which 102 were males and 9 females.

The Following are the Offences:

Arson, 1; assault, 14; arrested for out of town officers, 5; breaking and entering, 3; bastardy, 1; cruelty to animals, 1; drunks, 35; disorderly conduct, 1; attempting to dynamite a house, 1; larceny, 15; malicious mischief, 6; non-support, 3; peddling without a license, 1; rape, 1; stubborn children, 2; threat, 3; truancy, 4; trespass, 3; vagrants, 2; violation of town by-laws, 2; violation of school laws, 4; violation of automobile laws, 2.

Disposition of Cases.

Committed to house of correction, 4; to state farm, 2; to state board of charity, 1; Lawrence Training School, 2; Lancaster Industrial School, 1; discharged, 15; paid fines, 32; placed on file, 42; released, 7; committed to Danvers hospital, 7; held for grand jury, 2; held for superior court, 2.

Miscellaneous.

Complaints received and investigated, 1,021; disturbances suppressed, 69; doors found open and secured, 87; lights furnished for dangerous places, 59; lost children restored, 8; runaway horses stopped, 7; stray teams put up, 4; windows found open, 29; dogs killed, 100; lights found burning, 69; calls for patrol wagon, 270; responded to fire alarms, 40; fires discovered by officers and alarm given, 3; lost dogs restored to owners, 3.

The motorcycle has been a great help to the department, in several ways, covering the outskirts of the town on Sundays and holidays, and saving the expense of one man on these days. It has covered 1,865 miles from May 1 at an expense of \$36.40.

Keeper of Lockup.

From January 1 to July 1, 1914, there were 20 prisoners locked up at an expense of \$42.25 for keeper of

lockup and \$5.60 for meals, a total of \$47.85. From July 1, the date I took charge of the lockup, there have been 49 prisoners locked up at an expense of \$5.20 for meals and nothing for keeper.

Recommendations.

I would recommend that the sum of \$10,000 be appropriated for police service for the year of 1915.

I would also recommend the purchase of a motor ambulance for the police department.

Conclusion.

In submitting my report, I wish to think the Honorable Board of Selectmen for the support given me; also Judge Maurice F. Cunningham and all others who have assisted in the performance of my duties. I desire also to tender to the officers, both regular and special, my appreciation for their loyal co-operation.

Respectfully submitted,

Charles O. Thompson,

Chief of Police.

Report of the Library Trustees

For a report of what the Saugus Library has done during the past year we refer to the Librarian's report.

It is the sad duty of the trustees to record the passing away of Levi M. Hawkes, for many years the chairman of the Board of Trustees of the Saugus Library, and put on record its appreciation of his never-failing courtesy, his ever-ready willingness to do what he could for the Library, and the fidelity which made him feel it so much a part of his duty to be at the meetings of the trustees that he was rarely absent from them.

Below are figures, necessarily a year old, from the latest report of the Massachusetts Free Public Library Commission, regarding its ten towns whose population in 1910 was between 6750 and 8050:

	Population	Circulation of Books for Home Use	Total Income	Paid for Books and Periodicals	Paid for Salaries and Services
Saugus	8,047	21,789	\$ 1,143	\$ 532	\$ 475
Norwood	8,014	43,898	4,496	1,266	2,483
Milton	7,924	65,005	12,538	1,811	5,986
Bridgewater	7,688	35,102	3,220	652	1,123
Marblehead	7,338	28,656	1,767	672	885
Andover	7,301	32,415	6,974	996	2,605
Whitman	7,292	33,691	2,610	1,019	876
Stoneham	7,090	25,883	2,405	569	941
Rockland	6,928	32,103	2,618	677	1,205
Montague	6,888	37,706	3,252	956	1,296

The circulation of the Saugus Library is 15,917 volumes less than in Montague, with 1,126 less inhabitants, in all probability largely because its income is only about one-

third of that at Montague. Saugus leads in the smallness of the amount that it has paid for books and periodicals and salaries. The Saugus circulation has also been smaller because the library has only been open for three days a week and is not as well located for the use of the whole town as in most communities, although Montague has four villages and four libraries.

During the year the experiment has modestly been tried of opening a branch library at Cliftdale and to its success is due perhaps a large part of the increase of circulation shown in the librarian's report over that above. The committee therefore recommends a very generous appropriation to pay for more of the time of the librarian and her assistant, and for a larger number of new books, for the librarian says, "That is what people are crying for all of the time." The trustees wish also to extend as much as possible the work of the branch library at Cliftdale, where is located nearly one-half the population of the town.

As soon as the Cliftdale branch is fully established, a station ought to be opened at East Saugus and a larger use of the books by the schools and other organizations interested in the upbuilding of the town's welfare encouraged.

The following is the recommendation of the trustees for a library appropriation for next year:

Librarian and assistant for Saugus	\$600
New books	500
Binding old books	100
Heating, lighting, water	130
Janitor	50
Cliftdale Branch, rent, services, and express	250
Incidentals	50
Furnishings and repairs	50

Total

\$1,730

In a letter to the Saugus Library trustees, the chairman of the Massachusetts Free Public Library Commission recommends that they "increase the number of hours that the Saugus Library is open to from 40-44 hours a week and add a little to your librarian's salary," in order that there may be more time to do the work required in a town of the size of Saugus, and adds, "as regard to salary, at least \$50.00 per month." This would give a salary to the librarian equal to that paid to the grade teachers in Saugus, a recommendation which your trustees feel should be followed very soon, although it at this time recommends only \$600 for both the librarian and her assistant.

To keep the library properly catalogued, to furnish the town newspaper, public places, and organizations desiring lists of new books and books regarding topics of current interest, which must be done if Saugus is to get a proper return for the money invested in its library, the librarian should be employed at least five days every week. The increase in the library circulation last year is larger in proportion than the increase in expenses, and the trustees confidently ask that the men and women, and especially the boys and girls, of Saugus be furnished as good library facilities as in any town in the state, of the size of Saugus.

Report of Cemetery Commissioners

The Cemetery Commissioners respectfully submits its annual report for the year ending Dec. 31, 1914.

During the year a granolithic driveway was laid at the entrance of the tomb, which will be greatly appreciated by all who are compelled to go to that part of the cemetery during the winter and spring months.

The sign over the main entrance was removed, because it had become very badly decayed and was so weak that it had become a menace to public safety. Reference is made to the Town Accountant's Report for the financial report of this department.

To the Cemetery Commission:

Amount due December 31, 1914, \$446.50; 94 interments; value of tools, etc., \$275.00.

Respectfully submitted,

CHARLES L. DAVIS.

Superintendent.

Report of Board of Health

The Board of Health respectfully submits its annual report for the year of 1914. The Board organized as follows: Dr. George W. Gale, Chairman and Medical Examiner; Tom D. Emmett, Secretary; Charles E. Light, Health Officer and Inspector. Appointed Thomas C. Sutherst, Plumbing Inspector; A. W. Sawyer, Milk Inspector; Charles L. Davis, Burial Agent.

Regular meetings of the Board will be held at the Town Hall on the 1st Monday of each month at 8 o'clock P. M.

Various complaints have reached the Board, and when properly signed the case investigated, and where nuisance existed, same was abated. An unusual number of cesspools have been reconstructed during the year by order of the Board. This is of greater importance than is generally appreciated. We are still making a vigorous campaign against old worn-out cesspools, not properly constructed with iron covers, and solicit the hearty co-operation of the property owners in this connection, that we may not be obliged to face the sewer problem in the immediate future.

We have given considerable attention to the inspection of dairies and in many cases ordered changes to conform to regulation, and met with hearty co-operation.

Every year we are obliged to send patients to the Lynn Contagious Hospital for medical treatment for the State and for the Town. All of these cases are charged to the Board of Health of Saugus. If it is a State case we are reimbursed for two-thirds of the amount. The charge for a case of diphtheria and scarlet fever is \$15.00 a week; it generally takes six weeks for a case of scarlet fever, and not quite so long for diphtheria before the case is discharged from the hospital. In case of scarlet fever, it costs the Town at least \$90 for each person. We send those cases to the hospital where there are several children in the family, and where there is not proper conveniences for treatment at home.

We consider this to be for the public health and safety, and to give the patient the benefit of good treatment.

The statutes impose upon the Board of Health the duty of protecting the people from these causes and influences which may injuriously affect their health.

We have in Saugus 1980 children who attend school; statistics have shown the great prevalence of contagious diseases among school children. Schools are without doubt the means of spreading these diseases, from the fact that some attend school in the early stage of diphtheria, scarlet fever and other diseases.

There are many diseases of childhood which are most prevalent and fatal in the early years of life. It is the mild and neglected cases that spread the contagion and cause epidemic; it is among this class of cases that special attention of the Board of Health has been directed. The Board is required to investigate the premises, placard the houses, to give instructions in regard to sanitary measures, and after so doing to fumigate.

There are also some suspicious cases of contagious disease, which from time to time are reported to this Board for examination.

The State Board is devoting much time and money in its investigation of tuberculosis. At this time consumption is no longer given up as hopeless, but is considered curable in the incipient stage. Not only the lungs, but the spine, brain, joints and nearly every tissue of the body is liable to be affected with this disease.

Thirteen cases of tuberculosis were reported to this department. Three cases proved fatal; three patients were at the North Reading Sanitarium. If these cases remain there during the year 1915, it will cost the town \$671.71.

One case was sent to Westfield, Mass., but not at the expense of Saugus; one case of dog-bite cost \$61.00, and several cases of rabies were reported. We have had a larger number of serious cases than for some years past; quite a number of typhoid cases have been reported and proved fatal.

Owing to the fact that the voters at the Annual Town Meeting did not consider it wise to appropriate the amount asked for, we have unpaid bills amounting to nearly \$500.00.

We have been successful in collecting for several of the cases sent to the hospitals, yet it is impossible to collect for all.

There were four permits granted to clean out cess-pools and vaults; one permit to slaughter within town limits; and six permits issued to citizens to keep four or more horses on their premises.

The number of premises in the town placarded for contagious diseases was thirty-eight.

One hundred and seven cases of contagious diseases have been reported to the State Board. Ten were taken care of at the Lynn Contagious Hospital, seven at Malden, and one at Somerville. All the other cases were taken care of at their homes. The expense in all cases has been borne by the parties or their families, when it was possible for them to do so. The total cost to the town for health and sanitation, being \$2,398.17.

The following undertakers were licensed to conduct business for 1914: H. Dwight Bisbee, Cliftondale; Benjamin F. Fullerton, Saugus; Darcy & Quick, Lynn; James M. Blaisdell, Lynn; Mr. and Mrs. J. C. Spear, Everett.

The amount appropriated only takes care of work that is absolutely necessary; there is no chance to make any improvements. We would like to make dairy inspections at least four times a year, but no money is available. We would like to impress on the minds of the voters that we are responsible for their health at all times, and would ask their financial, as well as their moral support.

Trusting that we may have the hearty co-operation of the citizens during the present year, we are,

Respectfully,

GEORGE W. GALE, Chairman.

T. D. EMMETT, Secretary.

CHARLES E. LIGHT, Health Officer.

Report of School Committee.

By a recent vote of the town, the membership of the School Committee of the town of Saugus was increased from three to five. The Committee as a whole believe that this increase was a judicial and beneficial thing to do at this time. There has been a great deal of time spent by the Committee in studying the conditions existing in our public schools and they have given their best efforts toward the solution of the difficulties as they have found them. The judgment of five persons with an intimate knowledge of the situation existing in any problem is as a rule superior to that of any three persons, and if the town in the future is able to secure five persons to serve upon this Committee who will give their time and best attention to the work set forth before them, we believe that the school affairs can be administered with greater care and efficiency than with a Committee composed of only three members.

Great consideration has been given to the expenditure of the appropriation for repairs, and we believe that greater permanent improvement in the condition of the school buildings has been secured by the expenditure of this appropriation during the current year than has been obtained for a long time in the past. Special attention has been given to the provisions in the various school houses affecting the health of the children, because we believe that this is of prime importance in the welfare of the town. During the summer vacation the floors of nearly every school room in the town were thoroughly cleansed and oiled with special preparation for the use in school houses. By so doing, much of the dust incident to the use of school rooms has been eliminated, and the buildings kept in a much cleaner and healthier condition than heretofore. The desks in the North Saugus, Lynnhurst, Armitage, Oaklandvale and High Schools were thoroughly cleaned and the tops refinished and varnished, and it is the intention of the Committee during the ensuing year to complete the work throughout the town.

The work of installing a new plumbing system at the Lynnhurst school, which was provided for under a special appropriation at the March town meeting, has been completed, and we feel that a very satisfactory piece of work was obtained with the funds at hand.

The problem of refitting and repairing the old building at Saugus Centre was more expensive than was contemplated because of the requirements of the State Building Inspectors, relative to the sanitary arrangements at that school. We were, however, able to keep within our appropriation and to finish the work in excellent condition. We believe the building as it now stands will compare favorably with any school building in the town, and should not again be abandoned without serious consideration. The building, though old, is strong, well lighted, heated and ventilated, and as a whole, makes a very satisfactory school house. In connection with this building we would advise some action be taken by the town in order that some proper name may be selected for it. We feel that it would be an excellent idea to place upon all buildings which have been named by vote of the town some suitable designation.

Considerable time and thought was spent in remedying certain unsanitary conditions at the North Saugus School. We believe by doing what has been done there, conditions in that respect will be made satisfactory for a long time to come. The work laid out under the appropriation made at the last town meeting for changing the plumbing system at the Clifftondale School is progressing. During the spring and summer months, the Committee was unable to get a satisfactory bid to do this work, and they did not feel that they should overrun their appropriation by proceeding with the work when they knew it could not be done with the sum voted by the town for that purpose. Owing to industrial conditions, however, we have secured a satisfactory figure during the last few months, and are now going forward with the work, which should be completed before the annual town meeting.

Upon Mr. Butterworth's resignation in the spring, your Committee put forth their best efforts to procure a suitable successor for him, and out of a large number of applicants, the Committee and the Superintendent, after care-

ful consideration and investigation, chose Mr. Arthur L. Williams, formerly principal of the High School of Bristol, Rhode Island. Mr. Williams is a young man filled with enthusiasm for this work and was especially recommended to us on account of his strict discipline and high scholastic attainments. In view of the situation as he found it at the beginning of his work, we feel that though the time is short that the results which he has obtained during the past few months justified the Committee in making the choice which they did. Under his direction the new corps of teachers is working harmoniously.

Your committee has felt throughout the time that they have been in office that a clerk should be procured to assist Mr. Sims in carrying on his work as superintendent. Because of the new requirements of State Law relative to reports, records, etc., which must be kept by the superintendent of schools, a situation had developed where it became necessary for the superintendent to devote a large share of his time to the clerical work incident to his position. In view of the salary which we are paying to Mr. Sims, we thought that it was not a good business proposition to continue this policy. We attempted to make arrangements with the Board of Water Commissioners, whereby we could share the services of the clerk of that department, but after several conferences we found that it was not practical to do so, and have procured a clerk who shall give her whole time to the work of this department. We believe that this is the proper thing to do at this time and will enable Mr. Sims to give much more time to the supervision of the work of the individual teachers and allow him to keep in far closer touch with the conditions in the various schools than he has been able to do in the past.

Domestic Science in its second year is no longer an experiment. The room formerly used for this and Physical Laboratory work has been given over entirely to cooking and sewing, which with its splendid lighting and ventilating arrangement, makes an ideal place to carry on this work. Over one hundred girls are receiving instruction in cooking and household sanitation, in addition to which, sections of these classes are daily preparing and serving a luncheon to several hundred children. It has not been the intention to make a profit on the luncheon, but

to feed the children at actual cost. The success of this course, we believe, is due not only to our efficient teacher, but to the hearty cooperation of Principal Arthur L. Williams.

In addition to the courses in cooking, two hundred girls are learning to sew, this course having been extended to include the seventh grade.

During the latter part of last year the Felton School under the initiative of its efficient principal, Miss Maria Smith, organized a Parent-Teacher Association with Mrs. L. N. Adams as president. This society has now a large membership and is taking up some needed improvements. Among other things it is urging the acceptance by the town of School Street over which so many children must pass to the Felton School and which is so often almost impassable. But more than this, the association is bringing into closer relationship the two great agencies in the education of the child—the home and the school.

The school supplies have this year, as well as last, been put out to competitive bidders. This year the bidders were requested to submit two bids, one for prices on the entire amount, and one, their lowest prices for separate items, thus enabling us to secure supplies at the lowest price consistent with quality.

We wish that there might be a small appropriation for school grounds, which in many instances present a very neglected appearance. The Felton School yard in particular, with its fine growth of shrubbery, if properly graded would be an ornament to the town. We believe, as we stated last year, that every building is entitled to a suitable approach in the way of a cement walk, at least, but we have no funds which can be used for that purpose.

The boys of the High School are taking a more active interest in athletic matters and your Committee believes that this should be encouraged to a reasonable and moderate degree. We realize the growing need of a suitable athletic field or playground in our town and arrangements have been made whereby a proposition will be presented to the citizens of the town in concrete form and allow the citizens to vote intelligently upon the matter. We trust that it will be given their serious consideration and when the facts are presented to them, the necessary

funds will be forthcoming to provide suitable grounds for athletic events of the public schools and other organizations of the town.

The congestion at the High School has been temporarily relieved by placing two sections of the Ninth grade in the old school building refitted for that purpose.

The Superintendent in his report has clearly and intelligently presented the needs of the town in the way of new housing facilities for our schools. It will be necessary during the coming year to run double sessions in the High School, whereby the Ninth grade and the High School may be accommodated in this building. Your Committee does not feel that this will to any extent, interfere with the educational results obtained by those children attending school in the afternoon sessions. We do assume, however, that it will meet with some objection from the parents of those children, but in view of the increasing cost of our school system we believe that some inconvenience should be overlooked on the part of these parents in the interests of the economical management of the town.

Your Committee has given particular attention to the expenditure of the appropriations voted for school purposes at the last annual town meeting. We have used every effort to keep the expenses of our school system down to a figure consistent with efficient and thorough principles of education. We have attempted to be economical rather than parsimonious in all our expenditures, and are able to return to the town as an unexpended balance on our general appropriation of nearly \$850, and we were able to keep within all of our other appropriations excepting the appropriation for the Lynnhurst school, where owing to conditions arising during the work and the requirements of the State Building Inspectors, there was an overrun of \$17.50.

There may exist in the public schools of the town of Saugus, matters which do not meet with the approval of all its citizens. Many of those things exist because of the fact that they are not brought to the attention of the proper authorities for correction. Your Committee gives as much time as possible to the proper study of the existing conditions, but cannot know all the problems that exist. The Committee will be especially grateful to any citizen

of the town who will bring to their attention or to the attention of the superintendent, any matters which they feel need correction in any department of the public schools.

Respectfully submitted.

School Committee.

Report of Superintendent of Schools.

To the School Committee of the Town of Saugus:

The twenty-second annual report of the Superintendent of Schools is here presented. In previous reports much space has been devoted to school accommodations, coaching teachers, double promotions, manual training, domestic science, business course for the High School, gardening, playgrounds, courses of study, etc. It is not my intention to discuss at this time any of these matters at very much length, but rather to briefly report what is being done at the present time in some of these undertakings.

Manual Training.

We now have a man devoting his entire time to teaching manual training. The boys in grades seven and eight have it one hour per week through the whole year. The boys in grade nine and in the first and second years of the High School have it one and one-half hours per week. The employment of a teacher for full time permits us to give this work to the seventh grade and the High School boys, who previously have not been given this opportunity on account of insufficient time for the teacher. We have reason to believe that this lengthening of the course in manual training will greatly improve the quality of our work along this line.

Domestic Science.

This work is in charge of a graduate of the Household Arts Department of the Framingham Normal School, who gives her entire time to our schools. Good work is being done both in the grades and in the High School. This department now has full charge of the High School lunch room and is conducting the same with increasing efficiency and satisfaction to all concerned.

With the start that has been made there is no reason why our course in domestic science should not become one of the most efficient and practical courses offered by our public schools.

Double Promotions.

This year the only pupils attempting double work are in the sixth grade. The pupils in the seventh and eighth grades have had their opportunity for this work in the past two years. In general, a pupil ought not to attempt double work more than once during the elementary course. So long as we have a nine year course below the high school with the age of entrance at six years of age, provision ought to be made somewhere in the course for the "A" pupil to shorten the elementary course one year. By making this provision we do away with that promiscuous and vicious "skipping of grades" that prevailed in our schools previous to the advent of "double promotions" beginning with the sixth grade.

High School Business Department.

With an equipment of fifteen typewriters and an experienced and competent teacher at the head of the department we start this year upon a real efficient business course in the High School. We are striving to make our instruction in stenography, typewriting and bookkeeping so thorough and practical that when a pupil has satisfactorily completed the course he or she will be able to render satisfactory office service. We need more typewriters and more room for the necessary expansion of this department.

Gardening.

There is a strong demand here for more specific instruction in gardening. For several years about seven hundred of our pupils have been raising vegetables as members of the state agricultural clubs. For the past two years we have had a prize winner in the state contests for the best results from an eighth of an acre of potatoes. The entire work of gardening is worthy of more attention than we have given it in the past.

Playgrounds.

While we need larger playgrounds than we now have we are not making full use of those we already possess. All our school grounds are in need of playground apparatus. A few hundred dollars spent upon our school grounds would do much towards meeting the persistent demand for more playgrounds.

For those games requiring a larger area than the school yard the school committee should be given an appropriation that would provide suitable places for such games.

In fact, the entire expense of school athletics should be met by a town appropriation and spent under the specific direction of the school authorities. These activities are school activities and as such should be managed in the same manner as any other school undertaking, not for the benefit of a few but for the good of all. The practice of school children of whatever age contracting bills and begging funds is fraught with many dangers. Its tolerance in any community is unnecessary, and its remedy too simple to occasion anxiety or dissatisfaction.

Most of our school grounds have a front yard and a back yard. Wherever the front yard can be dispensed with as a playground it ought to be a matter of civic pride to make it as beautiful and as attractive as any private lawn along the street. But if it is necessary to choose between the playground and the beautiful lawn let us give the preference to the playground. Without health and vigor the enjoyment of the beautiful is hardly to be expected.

The Ninth Grade.

If the ninth grade is to be taught as we are forced to teach it this year we had better make provision to teach it with each grammar school as was done before the ninth grades were consolidated at the High School. With the abolition of departmental teaching for this grade most of the advantages of consolidation have been lost. The ninth grade should not be considered an elementary school. Its work should be mostly high school work, and it should be organized and taught as high school work. The ninth grade pupils are of high school age and should be dealt

with as high school pupils. Those elementary subjects that are to be taught in the ninth grade should be given by no different method than that used in presenting the same to a class of high school seniors.

Teaching in High and Elementary Classes.

President Eliot, President Emeritus of Harvard University, has said that in matters of discipline there should be no difference in methods from the kindergarten through the university; that, all the way along we are dealing with human beings subject to the same emotions, feelings and desires. Yet we all know that in practice there has been a wide difference. The same is fundamentally true in matters of instruction, leading the child from the known to the discovery of the unknown. The difference is one of practice and not of theory. In matters of discipline the elementary teacher is more often at fault. In matters of instruction the high school teacher is more often the transgressor. And why? Because the high school teacher has not been trained to teach. He is too often a mere task master assigning big lessons and hearing recitations while he does little or no teaching. He expects to hear most excellent recitations of what others have taught or of what his pupils have been able to learn by their own unguided effort. He expects the pupil to be able to spell every word in the English language, to compose in the style of a Shakespeare, a Milton or a Carlyle, to solve any problem in arithmetic, to answer any question about the world's history, to locate unhesitatingly every little hamlet that some war has brought into prominence, and so on through the entire field of human knowledge. If the pupil fails, swift, sure and unstinted will be the condemnation meted out to him by the high school teacher. Is it any wonder that the high school graduates such a small percentage of its pupils? **More pupils leave the high school on account of a lack of interest in the work of the high school than on account of necessity.**

The foregoing comment upon the work of the high school is not specific, but general; not local, but universal. In our own High School we are endeavoring to adapt the work to the needs of the pupils. The introduction of manual training, domestic science and business courses is but

a step in this direction. As a result I have never seen greater interest and enthusiasm in the work of the High School than prevails at present. We have every reason to expect the High School to grow not only in the number of its pupils, but in efficiency, in a finer quality of work done there. A public school exists for the pupils whom it serves. If the pupils need and desire Latin, let us teach them Latin. If they need and desire Spanish, let us teach them Spanish.

School Accommodations.

This same principle of adaptation needs to be applied to the upper grades of our grammar schools also. In order to make this adaptation in a community like ours we need to consolidate these upper grades. We then may have departmental teaching as in the High School. Teachers will be selected not because they can teach all subjects fairly well, but because each can teach some one subject unusually well. The ninth grade will be eliminated because not needed. If we desire economy and efficiency at the same time this is our only course.

This year two ninth grade divisions have been crowded out of the High School. Next year all of the ninth grade and one division of a High School class will be crowded out. The situation is serious and greatly affects the efficiency of the work of our schools. Delay in providing adequate accommodations means a loss both financial and educational. A plan of double sessions one group using the building in the morning and another group using it in the afternoon would give temporary relief, but not without some inconvenience. I know of communities that would make our school plant accommodate twice as many pupils as now. It is not a difficult undertaking for a community to put two school days into one working day.

Teachers' Salaries.

When the maximum salaries of our teachers was advanced one hundred dollars it enabled us to increase the number of trained and more experienced teachers in our employ. To nearly all the teachers who left us last June we offered a fifty dollar increase in salary, yet we were

unable to keep them. Other places have advanced salaries too, so that the gap between us remains about the same. Our practice, recently begun, of requiring all teachers to begin at the minimum salary regardless of the conditions and requirements of particular schools deserves unqualified condemnation. In some instances I know positive harm has resulted from it. I know of no other school system that has such a practice. We know our schools and we know the kind of teachers needed to successfully teach them. If the minimum salary can not procure the kind of teacher needed for a particular school then let us see what we can do with a larger salary provided we do not exceed our maximum. In justice to the taxpayer and in justice to the children entrusted to our care no other course is defensible. Only when we have used all the funds at our disposal for what in our judgment is for the best interests of our schools are we entitled to the commendation of "well done, good and faithful servants."

Some Good Things.

We are still increasing the number of our trained and experienced teachers.

Our schools were never better supplied with books and material for doing school work.

We have spent more money for reference works this past year at the High School than in all the previous years taken together.

Excepting music, we have no part time teachers.

We have fewer pupils than ever repeating the previous year's work. One considerable group of pupils promoted "on trial" is up to grade in its work and its advancing quite satisfactorily.

The health conditions about our schools are improving, although the air in most of them is too dry to be considered healthful.

Medical inspection is becoming more effective. The admonitions of the school physicians are being heeded more and more.

Our business and domestic science departments have made a commendable start.

A greater spirit of co-operation throughout the School Department is evident.

Needs.

New walks and improved grounds at the High School.
Some playground apparatus for all our school grounds.

At least one large athletic field to be bought or rented by the Town.

Some attention to the school accommodations at North Saugus and at Lynnhurst. With so many grades per teacher we can not wisely crowd more children into these rooms. The physical and health conditions also forbid placing more pupils in these rooms.

More medical inspection. By that I mean the employment of a school dentist and a school nurse. The cost of this additional work would be a trifle and much less than what we are now paying for medical inspection.

One more teacher for backward pupils.

A nominal addition of equipment for all special departments.

A revised code of regulations for the School Department that will carefully define the duties of all connected with the department.

One new building for the seventh and eighth grades and the elimination of the ninth grade.

The organization of our school system on the basis of either "the six and six plan" or the six year elementary course with junior and senior high schools of three years each.

A larger and more suitable office for the School Department.

State aid to make our school problem the equal in cost and efficiency to that of the other towns and cities of the commonwealth.

Conclusion.

The foregoing words together with the following tables and statistics should give to our citizens some idea of our public school activities. To the citizens I am truly grateful not only for a large and generous appropriation that has made possible the work now being done in our schools but also for their expression of confidence in me personally.

To you, the School Committee, I am also grateful not only for the confidence you have reposed in me but also for your co-operation in seeking to advance the welfare of our schools. The first duty of the superintendent relates to the matter of instruction. Therefore, in the selection of teachers and the direction of their work, in the planning of courses of study and in the selection of textbooks his recommendation is of paramount consideration. I am glad to publicly state here that I find it a pleasure to exercise this grave responsibility not only in accordance with statute law but also in accordance with the wishes of all interested in the welfare of our schools.

To the teachers whose labors more than any other factor determine the standard of our schools I wish to express my appreciation of their constant endeavor. As is the teacher so is the school. I commend them for a faithful performance of their duties.

REPORT OF PRINCIPAL OF HIGH SCHOOL.

Saugus, Mass., January 16, 1915.

Mr. William F. Sims, Superintendent of Schools:

My dear Mr. Sims:—

In accordance with the annual custom I herewith submit to you the report of the High School:

The school register shows a total enrollment of 289. Of this number 162 are girls and 137 boys. This number, together with the 47 in the Ninth grade fills the building to capacity.

The courses of instruction in the Classical and English departments are much the same as they have been. Both of these courses meet college entrance requirements, and both are quite definitely determined by such requirements. In these courses particular attention has been given to strengthen the work in Mathematics.

The course of study in our new Commercial department requires four years' work in English, two years in Penmanship, two in Bookkeeping, three in Typewriting, two in Stenography, and one each in Commercial Geography and Commercial Law. In addition to these subjects students of this department may take two years' work in the modern languages, and opportunity is given them to elect various other subjects for which they show particular aptitude.

The progress of our students in our Commercial department to date is good, but the real efficiency of the work will not be tested until our present Junior class graduates, as the members of this class will be the first to have had instruction in the full courses of Bookkeeping, Stenography and Typewriting.

I say unhesitatingly that no Commercial College can favorably compare its work with that done in the Commercial department of the public high schools. Their

requirements are not so severe and their demands for graduation are not so rigid. It is my opinion that our Commercial course should be the most severe of any in its demands for graduation, for from this course we are expected to turn out a "finished product." It is not so in the other courses. We must prepare students from our Classical and English courses for college, but it is for the college to turn out the "finished product." With this idea in mind we have endeavored to make the work in our Commercial department thorough and exacting. Because of this we are confident our graduates will, eventually, both profit and be pleased.

The work in Domestic Science is proving very popular. It is a taxing burden for such a department to be expected to furnish the daily lunch for the students, but such a requirement has been met, with entire satisfaction and great popularity. The large patronage of the students is most difficult to cope with. The Domestic Science teacher has really more at lunch time than she should be expected to do and because of this I recommend that assistance be given her for at least two hours each morning. I hope it will be possible to obtain a lady to render such assistance.

Many people seem of the opinion that cooking the usual and perhaps, I may say, simple things of our daily requirements are the only demands of this department. It is true such articles of food as are above suggested are cooked, and instruction in their making given. This work, in fact, supplies our good lunch counter already referred to, where a substantial lunch can be obtained for from five to eight cents, and an equally good dinner for from ten to thirteen cents. The larger work of the department is, however, the study of the Chemistry of Cooking; the attainment of the knowledge of proper balancing different foods to make a complete and nourishing whole, and the invaluable knowledge of the vast problems involved in the subjects of Domestic Economy and Household Sanitation. A visit to the department will convince any one of its inestimable value.

Much interest is evidenced on the part of many boys in the work of Manual Training. I believe the boys profit much from their instruction in this course and because

of their training latent talents in them are often developed. The new work in concrete construction is proving most popular.

In our Science department we need two new Chemistry tables and a rearrangement of the two tables already installed, so that the spacious room may serve for a combination Chemical and Physical laboratory. At present we are handicapped with the desks placed here for use in drawing and recitation. Our good Physics tables have no proper place. I recommend that all desks be taken from this laboratory so as to give proper room for our Physics tables, and that stools be provided for use at these tables as is customary for laboratory work. This recommendation and arrangement meets with the approval of our drawing teacher who also uses this combination laboratory for her classes every Thursday.

We are particularly fortunate in obtaining some new Physics apparatus to replace some of the old broken pieces. It is our duty to keep these now they have been obtained. We have inadequate space for such. Two new cabinets are needed to properly keep what we have.

The school feels the need of a gymnasium. In lieu of the training derived from this school necessity we are fostering and supervising athletics. The results of our football team were pleasing; our basket ball team is preparing for a well-arranged schedule; and the prospects are very encouraging for a successful baseball season. One of our teachers, who is an expert in the instruction of folk dancing, has formed a class for the girls of the two upper classes. The girls in this dancing class are much pleased with the work. The drills are conducted in our auditorium on Thursday afternoons. Instruction is also being given the teachers in calisthenics, after the regulations for the military "Setting up Exercises." These exercises are about to be used as an exercise drill for all pupils each day at the end of the second period. Their duration will be five minutes. We believe that because of these exercises the entire school will be benefited.

We are in sad need of a play-ground and athletic field. The boys have good courage and much ambition to hire a lot each year for their athletic activities. I hope

the near future may provide the school with this much-felt want.

All the reference books formerly piled in the office together with the new ones recently received, have been placed in room seven, which we have commenced to use as a library. Our new reference books are not only much appreciated but much used as well.

The great distance many are obliged to cover to get to school, I presume, accounts in a measure for the great number of absences and cases of tardiness registered. It would seem, too, that this partial cause for absence is a reason for a little carelessness in the matter. Parents wishing their children to do well at school should see to it that their children are present every part of every session.

I wish to encourage parents to map out regular hours for study for their children. The work now required for graduation from High Schools is hard, and no student can get the most out of the courses unless at least two hours daily are devoted to home study. Enough time is not given for study in school to adequately prepare students for recitations. Observance of this, together with the perfect attendance suggestion above, will ensure pupils of the greatest progress.

On the part of parents, students and teachers, I have found a general interest and hearty co-operation in any regulation proposed for the benefit of the school and I wish to take this opportunity to thank all for the many kindnesses extended me in my work.

Respectfully submitted,

ARTHUR L. WILLIAMS,

Principal.

SAUGUS HIGH SCHOOL

COURSES OF STUDY.

Each pupil is expected to take eighteen periods of work per week exclusive of Music and Drawing. Music is offered to all pupils once a week. Drawing, both Free Hand and Mechanical, is offered to all pupils desiring it. Proper credit will be given for all work done in Music and Drawing. By conferring with the Principal pupils may elect studies in other courses than the one in which they have enrolled.

The first column of figures indicates the number of recitations per week, the second the number of units of diploma credit. Sixteen units are required for graduation with not less than three in any one year.

Words by Annie Leola Clarke

On life's journey, we now are set,
 The Bay we all have crossed,
 Now the Ocean lies before;
 None of our crew must be lost.
 Our school days have been clear and bright,
 And we shall ne'er forget
 The true lessons that we have learned,
 School friends that we have met.
 To-night, dear friends, we say good-bye,
 Sorrowfully now we leave you,
 In years to come, we will ever try
 To our Alma Mater be true.
 Now nineteen fourteen passes on
 To cross the Ocean wide,
 They hope for great things in life to do;
 No one must drift with the tide.
